

### **Azure Standard delivery - June 29th**

I got a call this evening stating that we are getting an Azure delivery this Monday afternoon. We missed our last D1 delivery on June 15th (I'm assuming due to our not meeting the required minimum order). This is the first time we're getting an order delivered on the D2 route (we're normally the D1). So I won't know what's going on till I call them tomorrow. This is kind of strange.

### **No Farmers Market on July 4th**

We're not going to compete with our national holiday. We'll be back in operation on the 11th.

### **CFA annual potluck and election - July 8th**

We'd love to have you join us at the Bramble House on July 8th at 6:30 for our annual get together. If you can't make it, please be sure to respond to the election ballot that was sent out by email last week.

### **CFA receives our 501(c)(3) status!**

That's very good news because this will help us tremendously in our efforts to obtain grants and partner with other nonprofits and agencies. And we can now even accept tax deductible donations from people. So if you'd like to have your tax deductions go to a good cause, think about the CFA. We hope to make it easy to give by placing a donation page on our website in the near future.
