

Our next Brownsville Co-op meeting is wednesday, July 26th at 10:00 am at Randy's. We hope to have future meetings in the evening to allow and encourage more people to attend.

If you have any surplus produce in your garden, we encourage you to bring it to the Farmers Market (Randy's parking lot) on the 29th. It's open to the public from 9-12 so bring in your stuff a good deal earlier. And of course, everyone is encouraged to come by and purchase some fresh local food! For further information contact Anne Stein at scottanne@proaxis.com or call her at 466-5081.

BTW, the main water line from the city to the croquet court and the community gardens was laid today! We'll have it fully connected and operating tomorrow. We just need city council approval for the garden part at our next council meeting on monday the 24th. We still need to do some organizing for the community gardens before we can jump in full speed, so if anyone would like to help the community garden committee (Cheryl Haworth, Laura Holbrook and Margie Riggs) to develop policies, lay out plots, etc., you can contact Cheryl at clh@proaxis.com or call her at 466-3395.
