

Last 11 days of the Logo Contest

Now is the time to start designing your entry if you haven't already started. You have until the 30th to get your design submitted. If you have already sent in a logo design or tagline and it's not showing up on the logo website (<http://www.brownsvillecoop.com/coop/logo/>) please send it in again (I almost missed two entries because they ended up stuck in my spam folder).

We desperately need storage facilities

As you know, our long term dream is to have a natural food store right here in Brownsville. Yesterday we received an offer of shopping carts, shelves, and a freezer from the 1st Alternative Co-op in Corvallis. We'd love to take advantage of their generous offer but we have no place to store these items. If you have a corner of a barn or shed that we could use for some equipment, it will definitely help us to move a few steps closer to our goals. We could also use a truck and some muscles to transport this stuff from Corvallis. Please respond ASAP if you can help in any way.

Co-op Supporting Membership hits the 50 milestone

Nan & Steve Van Sandt are the 50th household to join the Brownsville Co-op as supporting members. They were also generous donors of produce in the early months of the farmers market, helping us get a great start with that project.
