

Co-op News April 5, 2007

Farmers Market starts April 28th

*We'll be starting our market season on the last Saturday in April. Be sure to bring your extra seeds and starts for a **seed exchange** being held that day!*

Volunteers needed to staff the Farmers Market booth

We're getting our training materials together and will be offering some classes on how to run the community booth. With the Co-op's purchase of two new price-computing scales, working at the booth should be a lot easier. Anne Stein informs us that if each supporting member worked at just 2 markets, we'd have all the help we need. Contact Anne for details (scottanne@proaxis.com).

Azure Standard order deadline is Wednesday April 18th

With a delivery date of Monday April 23rd.

New Buyers Club delivery site is needed

May will be our last month at the Bramble House site. Penny is leaving for Uzbekistan in June. So we need another location for our Azure Standard order drop off. One important condition is that a 40 ft. truck needs to get within roughly 20 yards of where the boxes will be delivered.

Next Co-op Meeting is May 14th

At the Bramble House Restaurant 7:15 pm
